EXPERIENCE

2 June 2025 – 14 July 2025

Researcher, Lincoln Award Employer Project (**6-week project)**

- Conducted research and contributed written findings and recommendations for a strategy report presented to HMRC.
- Collaborated within a multidisciplinary team of six students to deliver project objectives under fixed deadlines.
- Managed time efficiently, dedicating 6 hours per week to the project alongside university studies.
- Completed formal training in Project Planning, Conflict Management, and Presenting with Impact.

1 November 2021 – 25 April 2022

Data Entry Clerk, Community Speed Watch (temporary volunteer position)

- Processed raw data for the Lincolnshire Road Safety Partnership.
- Maintained high levels of data accuracy and formatting consistency when processing raw datasets.
- Maintained high concentration and efficiency during complex, repetitive data-handling tasks.

June 2019 – June 2021

Level Designer, Shaliquinn's Schematics (Remote)

- Designed interactive digital products within a remote team environment.

- Conducted Quality Assurance (QA) testing to identify issues and maintain product quality prior to release.
- Worked under structured review processes and incorporated feedback to improve outputs.

28 October 2019 – 28 September 2020

Delivery Agent, D&K News (1 year)

- Demonstrated strict reliability and punctuality over a 1-year period in all weather conditions.
- Adapted to short term changes in working pattern and covered for other delivery agents where necessary.

SKILLS

Programming: Python, C#

Web & Database: HTML, CSS, Full Stack Development

Data & Mathematics: Statistical Analysis, Data Preprocessing, Probability & Statistics

AI & Research: Machine learning concepts, AI ethics evaluations
